Price: ~~$128,995.00~~ $96,495.00

Description

A used 2023 MasterCraft NXT22 is an excellent choice for boaters who want reliable surf, wakeboard and cruising performance in a smart, family-friendly package. At 22 feet, the NXT22 offers plenty of room for friends and gear while remaining easy to handle at the dock, making it a popular option for weekends on the lake. Its deep hull design, ballast capability and intuitive controls help create clean, consistent wakes for riders of different skill levels, whether someone is learning their first wakeboard starts or chasing longer surf sessions behind the boat. Inside, the layout feels practical and premium, with comfortable seating, useful storage and a modern helm that keeps the captain in control. As a pre-owned model, a 2023 NXT22 can also represent strong value compared with buying new, especially when it has been well maintained, serviced correctly and cared for between outings. For buyers seeking a capable wake boat with MasterCraft quality, modern styling and all-day comfort, the used 2023 MasterCraft NXT22 is a boat well worth a closer look.
