Description
The **2027 G3 Guide V14** is expected to appeal to anglers who want a practical, easy-to-handle aluminium fishing boat with the confidence to explore quiet rivers, lakes and sheltered inshore waters; compact enough for simple towing and launching, yet purposeful enough for early-morning casting trips, it offers the kind of no-fuss boating experience that suits both first-time owners and seasoned fishers looking for a dependable runabout.

• Lightweight aluminium construction makes it a sensible choice for durability, low maintenance and everyday usability.

• The V14 layout is typically valued for stable casting space, straightforward seating and room for essential fishing gear.

• Its manageable size can make launching, retrieving and storage easier than with larger fishing boats.

• It is well suited to electric trolling motors, small outboards and relaxed days spent targeting species such as perch, pike, trout or bass.
